ISS provides an outstanding educational experience for children of more than 20 nationalities.

Predškolsko odjeljenje

Odjeljenje za predškolski odgoj i obrazovanje datira već pet godina i pruža predškolcima mogućnost pripremanja za "pravo" učenje. Tu djeca susreću nastavnike-odgajatelje koje ne pripadaju njihovoj obitelji, ali se trude da im pruže isto što i roditelji: zaštitu, pomoć, ljubav, znanje. Ovdje ne treba zaboraviti ni prisustvo obrazovnog aspekta iskazanog kroz igru i učenje na engleskom jeziku.

Pre-school Department

The Pre-school Department gives pre-school children the possibility to get ready socially, emotionally and academically for the "real" school. The children spend time with the teachers, who are not only family members, but at the same time try their best to give the children nurturing environments filled with love, help and protection.

The children are exposed by the English language all through the day and we guarantee the acquisition of the target language that is English. Learning is an integral part of the system and this is done through the usage of the English language.

Odgoj i obrazovanje za 21. vijek

U interaktivnoj komunikaciji svojstvenoj modernim odgojno-obrazovnim kretanjima u svijetu ,učenici se neposredno ,uz svesrdnu pomoć i podršku nastavnika , upoznaju sa onim što,prije svega, žele da saznaju u sferi svog interesovanja.

Učenicima su na raspolaganju računari i posebne pogodnosti internet, kojim će kroz mali "prozor" u svijet otkrivati tajne dječijeg svijeta.

Education for 21st century

In the interactive communication that is typical for modern pedagogic and educational movements in the world, the students, with the help and the encouragement of their teachers, are getting familiar, first of all, with the things that are primary in their own spheres of interests.

Students have access to computers and the internet. Through a small "window" with the teacher's guidance, the students can work on discovering the secrets of a new and exciting world.

School and outdoor activities

School and outdoor activities are a very important part of education here at the International Elementary School. There are several after school activities to choose from based on the ability and the desire that a student has. Through these activities, under the teacher's supervision, the children are able to develop their intellectual and social strengths.

Vannastavni aktivnosti

Vannastavnim aktivnostima se u Međunarodnoj osnovnoj školi daje velika važnost kao i redovnoj nastavi. Učenicima su na raspolaganju raznovrsne sekcije prema sklonostima i željama, a u slobodnom vremenu, pod nadzorom odgajatelja, učenici su u prilici razvijati intelektualne i druge sposobnosti, raznovrsnim rekreativnim i zabavnim sadržajima.
